Rear Silencer

Technical Description

The AC Schnitzer Sports Rear Silencer is made of high quality V2A special steel with a chromed tailpipe. The design of the silencer and tailpipe is dependent on model and vehicle. The tailpipe variants are divided into: classic oval, "Racing", and the "Sports Trim" style developed exclusively for the new M-models. Our silencer systems developed specially for the different engines not only ensure improved response but also give the vehicle a sporting, sonorous note.

Benefits for the Customer

More agility

-> More direct engine response.

More driving pleasure

-> More sporting, sonorous note.

-> Sporting appearance.

-> Durability.

beyond the standard.
